promoting collaboration between the US and France
to encourage Innovation in Science, Technology, and Higher Education.

Education, a Key to Gender Equality

From education to equality, to raising awareness and cross-cultural perspectives, this two-day Symposium intends to cover the full spectrum of gender equality.

On the evening of Friday, October 20th, the Gala Dinner includes a mentorship program, which allows young future leaders (women and men) to participate in the discussion.

A range of expert speakers, from French Secretary of State for Gender Equality Marlène Schiappa, to social justice advocate Angela Davis, to movie director Mira Nair and to former French Ministers Christiane Taubira and Najat Vallaud-Belkacem, will provide the young generation with an engaging and inspiring experience.

For any additional information on the Symposium please visit:

www.educationandgenderequality.com

The Symposium and its Gala Dinner rely on funds raised by the Resources USA Foundation in order to be a success. They, in turn, rely on your generosity.

For gala tickets (tables or seats), please contact: laura.willis@diplomatie.gouv.fr or [register online](#)
